

BIOFILM DETECTION

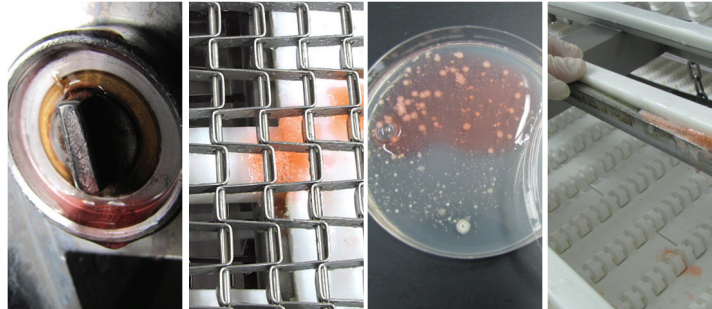

The Experts in Sanitation Solutions

Bio**Detect**, a simple tool to **detect** the presence of **biofilms** on surfaces and **promote food safety** in food plants.

Bio**Detect reacts in seconds**
in the presence of biofilms

- | Does not stain or leave residue on treated surface
- | Simple spray application does not require specific training
- | Reacts quickly for fast turnaround times
- | Visually and accurately identifies contaminated surfaces
- | Allows for trouble shooting in small hard to reach areas
- | Insures food safety and brand protection
